

## Project requirements

Name:	Brandon Watson
Community (UN SD goal):	Goal 12: Responsible Consumption and Production & Goal 16: Peace, Justice and Strong Institutions
Date:	May 19, 2021

<b>Project Name</b>	User-Friendly-Jukebox
---------------------	-----------------------

### Functional Requirements

- The device must have a footprint matching that of the existing sound system cabinet as it will be installed on top of the existing sound system cabinet.
- The device must be easy to use.
- The device must have a series of buttons with corresponding labels and lights to indicate whether they are active or not.
- The device must allow access to the internal MP3 player so that music changes can be made.
- The device must be planned with expandability options allowing for additional music genre buttons in the future.
- The device should be aesthetically pleasing as it will be in the main area of the clubhouse and considered part of the décor.

### Technical/Performance Requirements

- The device must be stable/dependable/reliable
- The device must connect to the existing sound system with a 3.5mm AUX cable
